In India

You can surely become doctor, engineer, chartered accountant, advocate, teacher, professor, computer expert

But on top of each one of them is sitting a Government Officer
Through getting into the Civil Service
You don't only obtain a suitable job

You also EMPOWER
the deprived community
Our boys & girls can sit in the HRD & Law Ministries and retain AMU's Minority Character
Our boys & girls can be the District Magistrate and don't let injustice be meted out to anybody
Our boys & girls can be the Superintendent of Police and don't let any undeserving arrest be made
Our boys & girls can sit in various ministries and ensure implementation of Sachar Committee's Recommendations
Our boys & girls can sit in the PMO and help the PM oversee the Prevalence of Development across India
Our boys & girls can be in the Chief Minister's office and get Waqf properties vacated from Government occupation
This is not happening because
We are happily sitting
Not working hard
and systematically
Let us work hard and spread our boys & girls in the nation and claim our share in the beauty of God's world

Every year 1m candidates appear for Civil Services Exam conducted by Union Public Service Commission
Out of that about 1100 are selected, every year
India has 14.2% Muslims
A that rate
Out of 1100
171 should be Muslim
But
Last year 52 were selected
Huge gap
Out of 1m candidates also there should be 14.2% Muslims: That is, 1,42,000.
But, out of 1m candidates

Hardly 1200-1300 Muslims appear

In the Palace the Emperor established Endurun Academy where meritorious youth selected from the empire were trained for 3 years. They were then posted to handle the empire's administration.
One who extends the hand catches it
If others can do it, why can’t we!

There is nothing that can compensate merit, confidence and honesty of a student when it comes to cracking examinations. Kashmiri youth have a lot of talent. All they need is a proper guidance and exposure. It is time we stand up and tell the world that we can make it to elite civil services. **Dr Shah Faesal**, the young Kashmiri doctor to have topped the IAS examination this year, talks about his journey to Civil Services, motivating factors, suggestions for the JK youth, and much more in an interview with Greater Kashmir correspondent, **Faheem Aslam**

- **What does topping in IAS mean to Dr Faesal?**
  *Smiles.* It means joy. Contentment. And of course, a bit of nervousness.

- **How did an MBBS graduate top think of Civil Services?**
  Before going for the MBBS, I would think that the Medical Science is the best field, and that the Combined Entrance Test (CET) is the end. That time my vision about other fields was not that broadened. But once I completed my MBBS, I could realize that I can take up the challenge of appearing in the civil services examination and qualify it. I didn’t think what will be in store for me.

- **Anything specific that motivated you to go for IAS?**
  As I said, I had not much vision about Civil Services earlier. But yes, the motivating factors were many, particularly the fact that most of the youth in Kashmir don’t go for Civil Services. And then we don’t have institutions which can properly guide us to take up the field. Another motivating factor was the Deputy Inspector General, CID, Abdul Gani Mir, who once called me to his office and said I should take up civil services as my career. I followed the advice. At the end, what I realize is that I was in MBBS by an accident, and I am in Civil Services by choice and chance.

- **The youth in Kashmir, I believe, are in search of a life to live. May be the ways and means to achieve the goal differ. But I wish they move from the enterprise of violence, which has been imposed on them, to a constituency of peace. It is time we break the stereotype that we don’t know anything except violence.**

- **And what were your thoughts before sitting in the interview?**
  When I went for the interview, I thought I have done well in the Mains, and now I have to work hard and qualify it somehow. I concentrated more on being confident and honest. Confidence and honesty is the key to success. You just can’t be fooled with the panel of interviewers. They happen to be the reputable scholars, who can’t be fooled by being about the bush when it comes to answering questions.

- **Can you share with us some of the questions they asked you?**
  Actually it is not one question, but a whole of a question of questions. To be precise, it is a diverse basket of questions. They asked me about the peace in South Asia, the Google controversy in China, the Censorship laws in China, the education and health sectors in India, about the Right to Information Act, and of course, the Jammu and Kashmir Problem.

Before I went for the examination, all that was in my mind was that I have to get into IAS even if it takes me five attempts. I was just crazy about IAS, irrespective of the perception that it is difficult to qualify the examination and that there is a certain degree of discrimination meted out to students.

- **How do you look at your topping the merit list?**
  Take it as an opportunity to serve my people around in whatever way I can. And I hope I will be able to live up to the expectations of those, who have expectations from me, and my getting into IAS.

- **Whom do you give credit for your ultimate success?**
  The credit goes to my mother who has been a pivot in encouraging me whenever it came to my academics. And then of course, my well wishers, who prayed for me, and believed that I will be successful. I thank all of them from the core of my heart.

- **What is your message for the youth of Jammu and Kashmir?**
  I always believe that there are different and better ways of living lives. The youth in Kashmir, I believe, are in search of a life to live. May be the ways and means to achieve the goal differ. But I wish they move from the enterprise of violence, which has been imposed on them, to a constituency of peace. It is time we break the stereotype that we don’t know anything except violence. And I think my getting into IAS has broken that to a great extent. I believe it has also cast aside a long shadow on the image of J&K.

- **If they aspire for IAS, what would be your suggestions?**
  My simple message would be that they got to exert their creativity. They are not looking for anything, but knowledge of diverse subjects, I think they must do a lot of reading, particularly that of English literature.

- **Why did you choose Public Administration and Urdu Literature as your subjects?**
  That is because they were relevant to the job that I was looking for. And then I am emotionally attached to Allama Iqbal (RA) and Faiz Ahmed Faiz. I keep reading Faiz continuously.

- **You have been writing regularly for Greater Kashmir. Did your writings help you anywhere?**
  Whenever somebody asks me about the mantra for my success, I tell them it is not I am writing for Greater Kashmir. In the Mains, we had to write an essay on Globalization versus Nationalism. Long back I had written an article titled “An ideal world order” in GK. It was connected to the issue. So my writing for GK has been instrumental in getting me to the place where I am today.

- **How do we see Dr Faesal 10 years down the line?**
  I think there is a vision that I have for my people around. Having familiarity with the

Changes in the Civil Services Exam System from 2018

The decision came on the recommendation of Rashwan Committee constituted by the Union Public Service Commission (UPSC), which conducts the prestigious examination annually. As per the new changes, optional will be scrapped and two new general studies paper will be added. One general studies paper of organisational management will be added and other general studies paper of statistics and data analysis. Interview will have reduced weightage to 250 instead of 275.
